**We worked closely with the firm Securex to develop a payroll-giving solution that allows employees and companies to support humanitarian projects that matter to them.**

## HOW DOES IT WORK

As a company member, Securex offers you many possibilities:

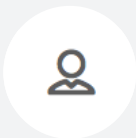

- implementing the Payroll Giving Program on each and every employee,
- implementing the Payroll Giving Program on only part of the employees on a voluntary basis,
- offering your employees to contribute individually, for an amount of their choice.

As an employer, you also have the option to double the amount paid by your employees. The Payroll Giving is a scalable and free-of-charge program for the subscribing company. The payment of the amounts is automatically managed by Securex to Padem.

### EASY

The process is managed automatically

### ACCESSIBLE TO EVERYONE

From a few cents to a few €

### TRANSPARENT

Your donation goes to the project of your choice

### ADVANTAGEOUS

The donation is tax-deductible
